

Customer Update Notices

Volume C3 Issue 1 February 1, 2010

- New DigiTel Version -
With capacity from 1 to 32 PORTS !

Step up to the port capacity you need! You can now use up to **eight** DigiTel Systems on **one** pc for port capacities of up to 32 total ports!

More ports allows more users to call-in at the same time!

A new DigiTel Software Version is now available!

A **free** upgrade to version 20.07.01 is available at DigiTelSoftware.com.

This new software version lets you use up to *eight* DigiTel Call-In Dictation Systems on one pc, connected to up to 32 phone lines, so that up to 32 users can call-in at the same time!

With this new version, you can connect up to *seven* 4-Line DigiTel Pods to your pc at the same time as a 1 or 2 or 3 or 4-Line DigiTel Pod for a total port capacity of between 1 and 32 ports.

More port capacity helps you to meet your growing business needs!

As you may know, you can easily upgrade your 1-Line DigiTel System to 2-Line capacity by simply purchasing a 2-Line Upgrade License Key to activate its 2nd line.

And as you may know, you can easily upgrade your 3-Line DigiTel System to 4-Line capacity by simply purchasing a 4-Line Upgrade License Key to activate its 4th line.

You system reseller may also allow you to trade-in your 1 or 2-line system for a 3 or 4-line system! Please call your system reseller for more info.

***More ports helps you increase your income...
by enabling you to handle more clients and larger clients!***

DigiTel... *the best call-in dictation system on the planet !*
