

# Dealer Update Notices

Volume D2 Issue 5 October 20, 2009

## - **New DigiTel Version** - **Up to 8 PORTS!**

**No, you're not seeing double!** You can now sell **two** DigiTel Systems for use on **one** pc for port capacities of 5 or 6 or 7 or 8 total ports!

***More ports allows more users to call-in at the same time!***

### **A new DigiTel Software Version is now available!**

A new DigiTel version, 20.07.00, is available at [www.DIGITELsoftware.com](http://www.DIGITELsoftware.com) as an upgrade. Upgrading to this new version is optional.

This new software version lets your customers use up to two DigiTel Call-In Dictation Systems on one pc, connected to up to 8 phone lines, so that up to 8 users can call-in at the same time!

With this new version, your customers can have one 4-Line DigiTel Pod connected to one pc at the same time as a 1 or 2 or 3 or 4-Line DigiTel Pod for a total port capacity of 5 or 6 or 7 or 8 ports.

### **More port configuration options gives your customers more flexibility, and gives you more opportunities to sell to a wider array of users!**

As you may know, your customers can easily upgrade their 1-Line DigiTel System to 2-Line capacity by simply purchasing a 2-Line Upgrade License Key from you to activate its 2<sup>nd</sup> line.

And as you may know, your customers can easily upgrade their 3-Line DigiTel System to 4-Line capacity by simply purchasing a 4-Line Upgrade License Key from you to activate its 4<sup>th</sup> line.

And now, with the new Two Pod Capacity of the latest DigiTel software, your customer can mix one 4-Line DigiTel System with a second DigiTel System that is 1 or 2 or 3 or 4-Line's... to create a DigiTel System with up to 8 ports!

***More Port Options = Larger Customer Base = More Revenue For You!***
